

SCHOOL-BASED PLANNING

The Board of Education is committed to keeping staff, parents and community informed by promoting their involvement in school affairs.

In this commitment, the Board recognizes the need for a process/structure that includes active and ongoing encouragement, contact, dialogue and collaboration in our schools and throughout the district with the aforementioned groups.

The Board's commitment is based on the belief that the more our staff, parents and community are informed and involved, the higher our students will achieve.
